Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Reopening of Prosecution

1. In view of the Appeal Brief filed on 6-26-2006, PROSECUTION IS HEREBY REOPENED because Applicant's arguments are persuasive. Examiner reviewed all the pending claims and believes restriction is required for the reasons mentioned below. Examiner apologizes for the delay of requiring the restriction requirement. A new action is set forth below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-4 and 8-15, drawn to storing software into a dedicated storage area of a user on a storage server, classified in class **455**, subclasses **418, 419**.
 - II. Claim 5-7, drawn to a software sales method wherein a user purchases software or is charged for software use, classified in class **705**, subclass **1**.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.
- In the instant case, invention I has separate utility than invention II, such as software stored on a storage server is downloaded to a user's portable data terminal.
 - Invention II has separate utility than invention I, such as software sales method.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and have acquired a separate status in the art because of their recognized divergent subject matter, and the search required for

Art Unit: 2614

each invention is not required for the other, restriction for examination purposes as indicated is proper. See MPEP § 806.05(d).

5. A telephone call was made to Applicants' representative, James Walters (Reg. No. 35,731), on August 1, 2006, to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

7. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R 1.48(b) and by the fee required under 37 C.F.R 1.17(i).

8. A shortened statutory period for response to this action is set to **expire 0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the applicant (see 35 U.S.C 133, MPEP 710.02, 710.02 (b)).
